【「~ましょう」與「~ませんか」】

日文中用來「勸誘/建議」別人「做~」時, 使用「~ましょう」或是「~ませんか」的文法。雖然「~ましょう」與「~ませんか」看似意思相同, 事實上他們2個可是不太一樣的喔

以下的選擇題中, 該選擇哪個答案才正確呢? 又為什麼呢?

- A: お腹がすいているなら、何かを食べ (①ましょう ②ませんか)。
- B: じゃ、クッキーでも食べ (①ましょう ②ませんか)。答案為: 1 (2) 2 (1)

「~ませんか」: 是用來問別人「要不要~」的問法, 而「~ましょう」: 則是用來跟別人說「我們一起~」的表現方法, 通常會以「一緒に~ましょう」的方式來表達要「跟別人一起做~」的意願。用例句 ab 的對話來說明的話, 就會變成下面這樣。

首先 A 問 B: 【你】肚子餓了的話, 【要不要吃點】什麼啊? B 就回答, 那我們【一起去吃】吃餅乾【吧!】

I love you, Taiwan

By 觀旅系大陸交換學生 張曉珍

Tourism Management Dep. Xiaozhen Chang

I got used to everything here when I was four months in Taiwan. There are a lot of people have asked me

that what is the difference between Taiwan and China mainland. I always said, living and learning, but I will not feel strange and fear, be-

cause the people here and I love this place so much.

In learning, the way of teaching in Taiwan and China mainland teachers

are not the same. The most important is the school model more free, more vivid and more attention to students' innovative ideas. The class atmosphere is more relaxed than China and the teacher-student relationship is like a friend with highly interactive. And it not just limited to the classroom. I participated in some campus visit with my classmates. It was so fresh and attractive for me. So I realize that a real new university class.

In my daily lives, Taiwan teachers so warm-hearted and more take care of me that I feel very at ease. On the other hand, the students here are very cheerful, very friendly, very easy to get along. And lived with them ,I have gained friendship.

Before coming to Taiwan, I have heard form that there are many most beautiful scenery. Do you know why Taiwan's landscape will attract so many tourists arrival it? Now I think the answer is people.

Taiwanese face is calm and quiet, elegant and restrained. The face is the most detailed landscape of the city.

For a tourism department student, I went to go around Taiwan. I think that before coming back, I will finish my dream!

Why do I make animation?

101-1 English Short Video Contest— First Prize

By 航機一甲——楊以安

Well, It all began when my English teacher wanted all the students to give a presentation in class about certain topics. After I gave the presentation, teacher was very pleased and impressed about my work and suggested that I sign up for the English Short Film Contest based on my presentation.

I agreed at first, but then I thought, making a film based on the presentation might be a little bit boring, so I decided to do it with another topic. After some difficulties finding a proper topic and actors for the film, I decided maybe I should make an animation which doesn't require any actors.

Coincidentally, I just got a software for making special effects for movies, which could also be used to make animation, and also I bought a book about the software few weeks ago. So I worked really hard on the project, I searched information about it on the Internet and learned it from the book and on Youtube.

Why do I make animation?

101-1 English Short Video Contest— *First Prize*

By 航機一甲——楊以安

With all the effort, I finally made it and placed first in the contest, and of course, I got the first prize, 3000NTD.

During the process, I watched a lot of animations on the internet, and got really impressed by them. Then short after the finishing of my first animation, I started to work on the second one, which is about Christmas. Surprisingly, I finished it within only 6 days, and it was a lot better than the previous one, I was very happy about it.

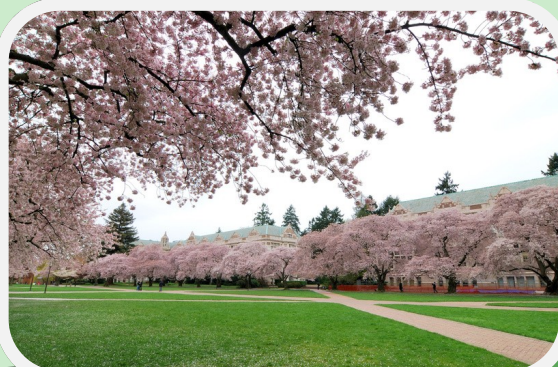

It is the sense of accomplishment that motivates me to make animations, although it requires a lot of effort and time, but seeing that I have realized my thoughts into an actual animation, it's just not something that could simply describe by words.

3月 POLL (寶貴意見)

我們會在語言中心公佈欄放投票券 請投下神聖的一票!!! ~~~我們重視你的意見~~~

You don't need to take a class in financial literacy to have a sense of how well you handle money. But how would you define "handling money well"? Do you think it's more important to save or to spend...and what are you saving for or spending on?

When it comes to money, do you tend to

1. spend more
2. save more
